QUICK GRITS

WWW.GULFREGIONITS.ORG

What is GRITS?

The Gulf Region ITS (GRITS) Chapter was founded in 2009. We are a chapter of ITS America that includes the geographic area of Alabama, Louisiana, and Mississippi. Gulf Region ITS serves as a mechanism to facilitate communication and coordination among our members, ITS America, and other governmental, academic, and private institutions, and associations.

GRITSU

The Gulf Region Academic committee is charged with reaching out to students to introduce them to ITS and encourage participation in GRITS. The academic committee is responsible for planning and carrying out social and networking activities at each of the major universities be it through making presentations, conducting social events or participating in engineering and career days. The academic committee also organizes the annual GRITS scholarship program, reviews applicants and selects scholarship recipients.

MISSION

"The mission of the Gulf Region ITS (GRITS), as a chartered state chapter of ITS America, is to foster the application of Intelligent Transportation System solutions in the GULF Region by sharing ideas and timely information with our membership, stimulating public-private partnerships, advocating ITS deployment, offering guidance to policy makers, and encouraging interest and support of ITS throughout Alabama, Louisiana, and Mississippi"
